John Westermarck, an old resident of Park City, was brought down from the mining camp Tuesday morning and lodged in the county jail. Both men were hit, and one died as the result. Westermarck is being held and will have a hearing in a few days.

Prof. John T. Miller of the L. D. R. University of Salt Lake lectured here in the State Tabernacle Wednesday evening. Prof. Miller was greeted with a large audience, the attendance reaching about four hundred. Prof. Miller is a wise and accomplished gentleman and a lecturer of long experience and wide popularity.

The vegetarians are rejoicing over the best strikes and subsequent high prices, as they regard the eating of meat not only as unnecessary, but pernicious. The fish dealers also rejoice, as their business has received a great impetus. Thus we see how one man's calamity is another one's fortune and how one part of the race is made happy by the misfortunes of the other. If we have high prices the consumer complains; if low the producer is growing.—American Farmer.

Bad company is like a nail driven into a post, which, after the first or second blow, can be drawn out with little difficulty; but, being once driven in, up to the head, the pinners cannot take hold to draw it out, which can only be done by the destruction of the wood. You may be ever so pure, you cannot associate with bad companions without falling into bad odor. From impure air we take diseases from bad company vice and imperfection.—Ex.

A box of nice eating apples left in the Academy building by the W. M. U. primary association last Monday were eagerly devoured by delegates to the Democratic county convention held in that building Monday morning. The young ladies went to get the apples shortly after the convention adjourned and were greatly surprised to find them all gone. Many of the delegates go up for an office this fall they can look out for the primary officers.

Emergency Medicines.
This is a great convenience to have at hand reliable remedies for use in cases of accident and for slight injuries and ailments. A good liniment and one that is fast becoming a favorite, if not a household necessity is Chamberlain's Pain Balm. By applying it promptly to a cut, bruise or burn it allays the pain and cures the injury to heal in about one-third the time usually required, and as it is an antiseptic it prevents any danger of blood poisoning. When Pain Balm is kept at hand a remedy may be treated before inflammation sets in, which insures quick recovery. For sale by John Boyden & Son.

Primary Convention.
A convention of the officers of the Primary associations of Summit state was held here Sunday, representatives being present from all the wards. Mrs. West of Ogden and Mrs. Snow of Salt Lake were present representing the general primary board.

An officers meeting was held Sunday morning in the Academy building, and in the afternoon and evening meetings were held in the State Tabernacle, which were largely attended. An object lesson was given by the members of the Coalville association Sunday afternoon which was well rendered and well received. The tenor by the visiting ladies and the local officers were good and appropriate. The convention was a very profitable gathering and much good will resulted from the same.

A Boy's Wild Ride for Life.
With a family around expecting him to die, and a son riding for life, 15 miles, to get Dr. King's New Discovery for Consumption, Coughs and Colds, W. H. Brown of Leesville, Ind., endured death's agonies from asthma, but this wonderful medicine gave instant relief and secured him. He writes: "I now sleep soundly every night." Like marvelous cures of Consumption, Pneumonia, Bronchitis, Coughs, Colds and Grip, prove its marvellous merit for all Throat and Lung troubles. Guaranteed bottles 50c and \$1.00. Trial bottles free at John Boyden & Son's Drug Store.

Political Gossip.

Miner, Salt Lake; E. W. Wells of Ogden; for congress, Joseph Howell of Cache.

The Republican county convention will be held September 12th at 10 o'clock a. m., and the senatorial convention at 1 o'clock on the same day. Both conventions will be held at Park City.

John Fred Rasmussen of Park City and ex-candidate Abram Hatch of Hober City have announced their candidacy for the senator from the fifth district on the Republican ticket.

Senatorial Announcement.
In the vote of the fifth of the fifth senatorial district, comprising Summit and Wasatch counties:

I hereby publicly announce myself as a candidate for the State Senator from this district on the Republican ticket. I elected my efforts will be successful for the best interests of my constituency and the State generally. I stand unwavering for any person or corporation and if my candidacy is successful, I will cast my vote for a man for next United States Senator who, in my opinion, would best represent Utah and her people. I am the support of all Republicans, and propose to use every honorable means to secure the nomination and election.

Respectfully,
FREDERICK MARAND,
Park City, Utah, Aug. 29th, 1904.

BEAUTIFUL WOMEN.
Faint cheeks, flushed with the soft glow of health and a more complexion, make all women beautiful. Take a small dose of herbina each meal; it will prevent constipation and help digest what you have eaten. 50c. Mrs. Wm. Wood, Midlothian, Texas, writes, May 21st, 1902: "We have used Herbina in our family for eight years, and found it the best medicine we ever used for constipation, bilious fever and malaria." Sold by John Boyden & Son.

Little Girl Injured.
Edna Ball, the eight-year-old daughter of Mr. and Mrs. J. H. Ball of this place, was with a very painful accident last Tuesday afternoon about six o'clock, which may result in the loss of her right hand. She was playing near a hay stack, where there was aerrick. She had hold of a rope near a pulley and one child on the opposite side of the stack took hold of the rope and pulled it. The girl's hand was forced into the pulley with the result that the skin was literally stripped off her fingers, and a terrible gash torn in the palm of her hand. She was taken at once to the office of Dr. French and the wound dressed. It was thought at first that the hand would have to be amputated, but the doctor is now of the opinion that the member can be saved, although it is in bad shape.

For Waterworks.

For some months past several members of the City Council have been agitating the question of a waterworks system for Coalville City. A general estimate of the cost in the average tax-payer has been made and it seems that for the person who pays taxes \$500 valuation the cost would be at most \$1.00 per year until the bonded indebtedness necessarily incurred is cleaned up.

If it is found, after further investigation and inquiry, that the taxpayers generally seem to favor putting in a waterworks system, an election will be called in the near future for the purpose of submitting the question to the people. It, however, those who are making the preliminary inquiries meet with too much discouragement, the council will probably not think it well to incur the expense of an election that would probably result in a defeat of the proposition.

Sour Stomach.

When the quantity of food taken is too large or the quality too rich, sour stomach is likely to follow, and especially so if the digestion has been weakened by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let five hours elapse between meals, and when you feel a fullness and weight in the region of the stomach after eating, take Chamberlain's Stomach and Liver Tablets and the sour stomach may be avoided. For sale by John Boyden & Son.

ABSCISS.

W. H. Harrison, Cleaveland, Minn., writes, Aug. 19th, 1902: "I want to say a word of praise for Ballard's Snow Liniment. I stepped on a nail, which caused the cords in my leg to contract and an abscess to rise on my knee, and the doctor said that I would have a stiff leg, as one day I went to J. F. Geed's drug store (who is now in Denver, Colo.) He recommended a bottle of Snow Liniment; I got a bottle and it cured my leg. It is the best liniment in the world."

ABSCISSER, with few exceptions are indicative of constipation or debility. They may, however, result from blows or from foreign bodies, introduced into the skin or flesh, such as splinters, thorns, etc. Sold by John Boyden & Son.
